

Company's Profile

Copperhead Pipeline & Construction was established in the yr. 2004, due to the growing need in the pipeline industry. Providing a quality work force, with a honest reputation, has allowed us to develop a personal relationship with our clients. As members of American Pipeline Contractors Association, ISNet World, and NCCER, our dedication to safety and performance excellence define our operating objectives. Our in-house Safety Director insures that all personnel are trained and required certifications are in place. Our present client list include Oneok LPG Partners, Kinder/Morgan, Enterprise, Coffeyville Resources and Valero Refining. Striving to add your Company's name to Our list, is our goal!

"Safety Excellence"
Nobody Gets Hurt!

PIPELINE INTEGRITY AND REHAB

Copperhead Pipeline and Construction Inc., performs pipeline integrity work across the United States. We offer a wide variety of services on Natural Gas, LPG and Crude Oil pipelines without service interruptions, including (but not limited to) excavation, re-coating, painting, Clock Spring installation, welding of sleeves, cut outs, line lowering, and hot taps. We also perform DOT hydro testing and pipeline displacement.

NATURAL GAS, OIL, LIQUIDS, REFINED PRODUCTS

Copperhead Pipeline & Construction Inc. Performs Grassroots Projects, Expansion, Revamps, Maintenance, and Relocating, in the following areas:

- **Compressor Stations**
- **Metering Stations**
- **Pipelines**
- **Natural Gas Storage Facilities**
- **Gas Processing Plants**
- **Pump Stations, Terminals, & Tank Farms**
- **Pipe Fabrication**

ASME CODE STAMPS

Copperhead Pipeline and Construction also carries The "U", "S", and "R" Code Stamps. This allows us a full Turnkey Services to the Oil and Gas industries, providing an ability to perform any repairs, alterations and/or fabrication of coded vessels or equipment. Copperhead is run by a highly experienced management team who have spent their lives in the Oil and Gas industries and understand the unique requirements that are critical to delivering quality service and product on time and on budget.
